Nugget BFSI Outreach Plan: 40 CXO Meetings in 4 Weeks

Oct 13, 2026 · @Snehil Kumar

The math

Cold outreach to BFSI CXOs converts at 1–3%, so 40 meetings from cold alone would take about 2,000 contacts. The plan instead pairs a tight list with warm paths, and aims for 55 booked to cover no-shows.

Channel	Meetings
Warm intros (Zomato/Eternal network, investors, Nugget customers)	15
Value-first cold outreach (AI support audit)	15
Events, CXO roundtables, LinkedIn content	10
Total	**40**

Who to target

About 70 accounts, 400 contacts.

- **Accounts:** the top 25 banks (PSU, private, small finance) and about 45 life, general and health insurers. Rank them in three tiers by support volume, complaint pressure and digital intent.
- **People:** 5–7 at each account: CEO/MD, COO, Chief Customer Officer, CDO/CIO/CTO, Head of Contact Centre, Head of Digital.

How AI does the heavy lifting

The hook is a free AI support audit. An AI agent tests each target's chatbot, IVR, WhatsApp and email with about 30 real customer queries in English, Hindi and regional languages. The CXO gets a one-page scorecard: "We asked your bot 30 questions. It resolved 9." It's specific, costs them nothing, and points straight at what Nugget fixes.

Job	Tools
Lists and enrichment	Sales Navigator, Apollo, Clay
One-page brief per account (annual reports, earnings calls, RBI Ombudsman and IRDAI complaint data)	Claude / ChatGPT
Support audit and scorecard	AI test agent + LLM scoring
Personalized copy and 60-second video	LLM drafts with human edits, Loom/HeyGen
Sequencing, CRM, meeting prep	Instantly/Lemlist, HubSpot, Fireflies

Week by week

Week	Focus	Key actions	Meetings (cumulative)
1	Build	Warm new email domains from day 1 (send from founder inboxes until then); build the list; audit the top 30 accounts; send warm-intro asks with a ready-to-forward blurb; plan 2 roundtables	8 (8)
2	Launch	Tier 1 sequence: email + scorecard, LinkedIn, Loom, call via EA, break-up note over 12 days; founders post audit insights twice a week	12 (20)
3	Scale	Tier 2 sequence; reach several people per account (CX head pulls in CXO); roundtable 1; weekly rewrite of weak messages	12 (32)
4	Close	Roundtable 2; re-engage everyone who opened or replied "later"; ask every meeting for one referral	8+ (40)

Guardrails and what I need

- **Quality bar:** a meeting counts only with a CXO or their named delegate and a clear next step. Delegate meetings are reported separately.
- **Compliance:** follow DPDP and TRAI DND rules and keep volume per inbox low. Have answers ready on data residency and RBI/IRDAI outsourcing norms.

- **Tracking:** a daily dashboard of contacts touched, reply rate, meetings booked against target and show rate. If behind pace after week 2, move effort to warm intros and roundtables.
- **From Nugget:** about 2 hours a week of founder time for intros and roundtables, one referenceable customer metric, and a budget for tools and events.
